

US Appl #10/789,146 (Rubach) GAU 2877 Proposed Amendment A page 3 of 3

Please **ADD** the following Claim:

20. Said jump takeoff position indicator system of claim 18 in which both said light beam emitting assembly and said light beam detecting assembly contain a microprocessor that enables and synchronizes said plurality of infrared light emitting devices and said plurality of infrared light detecting devices to operate in a single emitter and detector pair;

Whereby said jump takeoff position indicator system of claim 19 may be battery-powered.

REMARKS:

The applicant has proposed deleting, modifying, and adding claims for clarity of the disclosure of his invention.

Very respectfully,

Richard S Missimer
Patent Agent for Applicant
USPTO Reg # 45,537
